HI-TECH HANDS-ON SUMMER CAMP

Kindergarten - 7th graders will love summer tech camp at TECHPLAYZONE® this summer. Campers will be immersed in technology while learning about cool science topics. Campers are grouped by grade levels as they rotate through hi-tech zones. Campers bring lunch and snack each day. Every Friday concludes with a Parents' Presentation for all campers and a pizza party for full day campers.

Full Day Camp: 8am - 5pm \$175 **Half Day Camp:** 9am - 12noon \$100

Registrations are accepted over the phone: (813) 684-7329. Or if you like, forms can be mailed to P.O. Box 1766, Valrico, FL, 33595. You may also email this form to register@techplayzone.com. Checks & credit cards are accepted. Please make checks payable to: **TECHPLAYZONE®**.

Student's Name _____ Age: _____

WEEKLY CAMP DESCRIPTIONS

Every week of camp includes *video game creation, robotics, music-mixing, and amazing hands-on science experiments*. Full Day campers also enjoy *digital movie making, 3-D modeling, electronics, web animation, and Microsoft Office projects*. The following descriptions are examples of the 45-minute daily science activities that take place each week in addition to the hi-tech activities.

Week	Topic	Theme
June 14 	Physics	Roller Coaster Mania Build Screamin' Serpent K'Nex Coasters & K'Nex Ferris Wheels
June 21 	Chemistry	Slime Time Live Learn about atoms and molecules while making lots of slime every day at camp
June 28 	Computer Science	Komputer Kraze Take computers apart and put them back together to learn how they work
July 5 	Oceanography	Creatures of the Deep Dissect squid & explore the food chain of amazing deep sea creatures
July 12 	Astronomy	The Spectacular Space Place Explore our amazing solar system & enjoy a special star-gazing night at TPZ
July 19 	Biology	Creepy Crawly Critters Make terra-aquariums filled with grass, bugs, and fish in a study of ecosystems
July 26 	Engineering	Amusement Park Mayhem Engineers invent roller coasters, ferris wheels, and bumper cars this week
August 2 	Chemistry	Things That Go "BOOM!" Create cool chemical reactions while learning how atoms mix and bond
August 9 	Computer Science	Komputer Kraze II Build simple computer circuits and explore MACs during this week
August 16 	Energy	Extreme Sports Discover the science in extreme sports with indoor action to beat the heat
